2. 

3. Instructions to compiling
    a. https://github.com/tuandoancsus/PlasticRailGame clone the repo
    b. Have the TAGE engine files are included refer to
    c. Open IDE of your choice
    d. Build and run project using .bat files
        i. clearTAGEclassFiles
        ii. buildTAGE
        iii. Compile
        iv. run
4. Two players will spawn onto the two islands. There will be a ball spawning at a distance where the players will try to grab it. Whoever throws the ball and hits the pill bottle wins. Point is given when the ball is scored on to the pill bottle
5.
    a. Right JoyStick-Forward
    b. Left JoyStick- Rotate Camera
    c. A - Jump
    d. B - Backward
    e. Y - Throw
    f. X - Grab / Drop
    g. LB/RB - Zoom in/out

6. There are 3 lights that shine onto the pill bottle, and on two players when they spawn that's on the two islands. At first it will shine on the two players, turns off, and then show on the pill bottle.
7. n/a
8. n/a
9. a statement indicating the (1) genre, (2) theme, (3) dimensionality, and (4) activities utilized in your game
    a. Sport - Compete with one another to be the first person to grab the ball and score
    b. HumanBody - a game takes place inside the human body
    c. 3D - fully 3d render models using blender
    d. Combat, Physical Dexterity - running around to and throwing the ball
10. D
    a. External models
    b. Networked Multi-player
    c. Skybox and Terrain
        i.
    d. Lights
        i. Light is shine onto the balls and on the pillbottle
    e. HUD
        i. Bottom left: You are able to see time duration, score and status of the ball, and camera position
    f.
    g. 3D Sound
    h. Hierarchical SceneGraph
    i. Animation
        i. Avatar
            1. Walk
            2. Run
            3. Jump
            4. Idle
            5. Wave
    j. NPCs
    k. Physics
        i. The ball from bouncing from the ground, and it gradually lowers the distance based on how long it bounces.
        ii. When you throw the ball it can travel forward and it also bounce forward
        iii. When you throw the ball towards the pill bottle, the balls bounces off from it
